## OBJECTIVE

---

To leverage my hands-on experience in Java technologies and application development, along with my proficiency in designing, coding, and debugging software solutions, to contribute effectively as a Software Developer. Seeking to utilize my knowledge in Java, Spring Boot, and MySQL, along with my commitment to continuous learning and improvement, to drive innovative solutions and support the success of a forward-thinking technology team.

## INTERSHIP

---

### Java Full Stack Developer

Aug-2024 - Present\*

Besant Technologies

Chennai, India

Currently I'm working in frontend development with HTML, CSS, JavaScript, and React. And also on backend development using Java, Spring Boot, and RESTful APIs, while managing databases with MySQL.

## EXPERIENCE

---

### Programmer Analyst Trainee

Oct-2023 - Mar-2024

Cognizant Technology solutions

Hyderabad, India

As a Programmer Analyst Trainee specializing in Java Suite Domain, I was embarked on an exciting journey to learn and developed proficiency in Java based technologies and applications. I have hands-on experience in designing, coding and debugging Java software solutions. I participated in the development and maintenance of Java-based applications within the designated domain

## EDUCATION

---

**Bachelor of Engineering - Electronics and Communication Engineering** , K. Ramakrishnan College of Engineering, Trichy - 8.34 CGPA. 2019-2023

**HSC**, Cheran Hr.sec school, Karur - 70.5 Percentage. 2018 - 2019

**SSLC**, Cheran Matric Hr.sec school, Karur - 83.4 Percentage. 2016 - 2017

## SKILLS

---

- **Technical Skill** - Java, Object-Oriented Programming, SQL and MYSQL, Spring Boot, Salesforce.com, Full-stack development, JDBC, Eclipse IDE, HTML, CSS, Java Script and GIT
- **Soft Skill** - Performance Analysis, Verbal communication, Problem-solving skills, Analytical skills, Multi-disciplinary, Versatile, Ownership.

## PROJECTS

---

- **E-Commerce** - Developed a Grocery Store application using Java, Spring Boot, HTML, CSs and Java Script. Implemented features like product listing, shopping cart, order management, and payment processing, with MySQL for database management and RESTful APIs for backend functionality.
- **Student Database Management System (Java Spring Boot)** - Developed a web-based application using Java Spring Boot to manage student records. The system supports CRUD operations (Create, Read, Update, Delete) via a RESTful API, integrating with a relational database (MySQL) for data storage. Implemented the Model-View-Controller (MVC) architecture with Spring Data JPA for database interaction.

## CERTIFICATIONS AND ACHIEVEMENT

---

- **Talent Next course on java J2EE** - Digital skills readiness program course completion certificate in WIPRO.
- **Java Full Stack Course** - from Besant Technologies, Chennai.
- Achieved 100 badges on Trailhead, demonstrating a strong understanding of Salesforce.com.
